Dear Mr. Christiansen:

SUBJECT: HOME IN LIBBY FOR CLEANUP

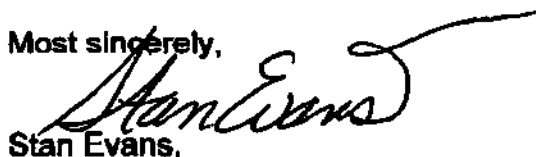

Ms. Courtney Zamora called me to her office to apologize for being rude to me at our meeting in July – that was after our meeting with you. I can't say that an apology was really due, but she explained that she "develops an attitude" or gets "a little moody" when dealing with the negative aspects of her job.

Courtney Zamora also admitted, like you, that "a mistake" has been made with regards to our property at 4th and Dakota (420 Dakota St, Libby, MT). She also explained, unlike before, that "for the most part we (she) does have some say in the cleanup schedule" and that it is "not all Denver" like she lead us into believing in the beginning. At this date, no remedial action has been taken to correct "the mistake" which still has many advantages for immediate cleanup by the EPA. We continue to hold the property unoccupied.

We thank you for personally meeting with us and visiting our home on 4th and Dakota in last August.

I continue to be most frustrated with the lack of action and the insensitivity with regards to this "mistake" and lack of recognizing the current existing advantage.

Most sincerely,

Stan Evans,

Property Owner 4th and Dakota
